## LANG TENGAH TURTLE HATCHERY AT TANJONG JARA RESORT

Every year between May and September, the green turtle returns to nest and lay its eggs, the very same place it first hatched many years ago. Discover more about these magnificent creatures at our turtle hatchery, learn about the dangers they face and the conservation efforts made to protect their hatchlings from poachers and return them to their natural habitat in the sea. Guests can subscribe to a nest adoption programme whereby a monetary pledge will save a nest from being sold as food to the marketplace. Email updates will provide the guests with photographic progress reports and an invitation to witness the hatching of their nest.

FREQUENCY Daily – seasonal, May to September | Subject to availability and weather conditions | Complimentary | Nest adoption programme subscription upon request

## DIVING AT TENGGOL ISLAND

Explore the reefs off Tenggol Island, set within the Terengganu Marine Park. The seasonal diving in its waters between March to October is one of Asia's best-kept secrets as the tropical latitudes give the waters an extraordinarily rich seabed and great marine biodiversity, providing an unforgettable underwater experience for beginners and exciting adventures for experienced divers.

FREQUENCY Dive season is available from 1 March to 30 September | More information on the full range of snorkeling and dive programmes can be found at [www.tanjongjararesort.com/pure-activities.html](http://www.tanjongjararesort.com/pure-activities.html) | Subject to weather and sea conditions | Advance reservation required

## MARANG ECO RIVER CRUISE

Discover the beauty and wildlife of the Marang River on this half-day cruise.
